Stay healthy! Join us on our WALKS!

By blending education, movement, and community engagement, **“Walk with a Doc”** empowers people to take control of their health one step at a time. The program is free, inclusive, and open to all ages and fitness levels, making it an easy entry point for those who may be intimidated by traditional exercise or hesitant to seek medical advice.

Research has shown that you could gain three hours of life for each hour of regular exercise. A quick stroll around the block does a body good!
